

VINYL APPLICATION

FOR HIGH TACK VINYL

Printed Layer /
Vinyl Sticker

Backing Paper /
Release Liner

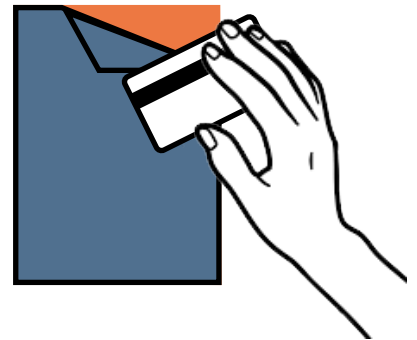

Step 1: CLEAN

*Wipe the application surface with a clean, dry cloth.
If the surface is dirty, use methylated spirits
to remove. Make sure the surface is free of soaps,
grease, oils etc. and is completely dry
before application.*

Step 2: REMOVE

*Slowly peel back a small section of the
Backing Paper / Release Liner and apply the exposed
edge to the surface, while holding the rest of the sticker
away at a 45° angle. With a soft-edge squeegee or your
hand, gently press on the adhered edge.*

Step 3: APPLY

*Carefully peel the Backing Paper / Release Liner
bit by bit, pressing the sticker onto the surface as you
go. Leaving the Backing Paper / Release Liner on
ensures no additional dirt or dust will end up
on the adhesive.*
